

## Quick Step Guide

## **How To Determine If The Lamp Requires Replacement?**

**After 30 seconds of turning on the TV  
The POWER LED and LAMP LED  
rapidly blink together at the same time.  
You may call an Authorized JVC service facility to  
replace the lamp  
or you can replace the lamp on your own.  
Go on to the next page for more information.**

# How To Obtain A Replacement Lamp?

## Option 1

**To Obtain The Closest Authorized  
JVC Service Facility To Replace The Lamp:**

**Please visit: [www.jvc.com](http://www.jvc.com) and click on the Service Center Locator link  
Enter your zip code and model number or select Television-DILA Proj TV**

## Option 2

**If You Choose To Replace The Lamp Yourself:**

**You can only use part numbers

## Option 2

The screenshot shows the JVC Accessory Store website. The main product is the TS-CL110UAA lamp, priced at \$199.00. It is marked as 'Availability: In Stock'. A list of compatible models is provided: HD-522573, HD-522595, HD-612575, HD-612595, HD-612786, HD-612886, HD-705306, HD-830886, and HD-550786. A yellow banner at the bottom reads: 'Don't be disappointed... TRUST ONLY CERTIFIED JVC ACCESSORIES!!'. The left sidebar lists various accessory categories like Video, Audio, and Computer.

## Before You Start

**Caution:**

Although you will find the process to change the lamp to be very simple, please read the warnings on this page and go through each of the following pages step by step.

**Caution:**

It is very important that you **NEVER TOUCH THE GLASS SURFACE OF THE LAMP**. Touching the glass surface will deposit oils from your hand onto the lamp surface. When the lamp heats up to its operating temperature, the oil will cause a difference in temperature on the lamp surface that will likely cause the lamp to break.

**Caution:**

Under operating conditions, **THE LAMP WILL GET EXTREMELY HOT AND WILL CAUSE SEVERE BURNS IF TOUCHED**.

**Caution:**

Before attempting to replace the lamp, make sure the TV has completely run through its cooling cycle. Turn the power off and wait until the Lamp LED blinks very slowly and turns off completely.

**Caution:**

Unplug the TV. If you feel any warmth as you place your hand near the lamp, **DO NOT TOUCH IT**. Wait until the lamp has completely cooled before attempting to replace it. After turning the power off, wait at least 1 hour.

**Caution:**

**NEVER** attempt to replace the lamp with the TV plugged into a wall outlet. Attempting to replace the lamp with the TV plugged in could lead to a severe electrical shock.

**Caution:**

**DO NOT DROP** the used lamp. The inside of the lamp is under pressure. Dropping or other hard shock could cause the lamp to shatter.

**Caution:**

**ALWAYS** recycle the used lamp. Because the lamp contains a small amount of mercury, it cannot be thrown away with regular trash. Follow the recycling instructions included with the Lamp Replacement Kit.

# Step 1

of 13

## Turn Off The TV.

**Press the POWER button on the remote control or TV front panel.**

**Warning:** Although turning off the TV allows the lamp to cool, it does not mean that the lamp will immediately be cool enough to handle safely. Please wait at least one hour before proceeding to replace the lamp.

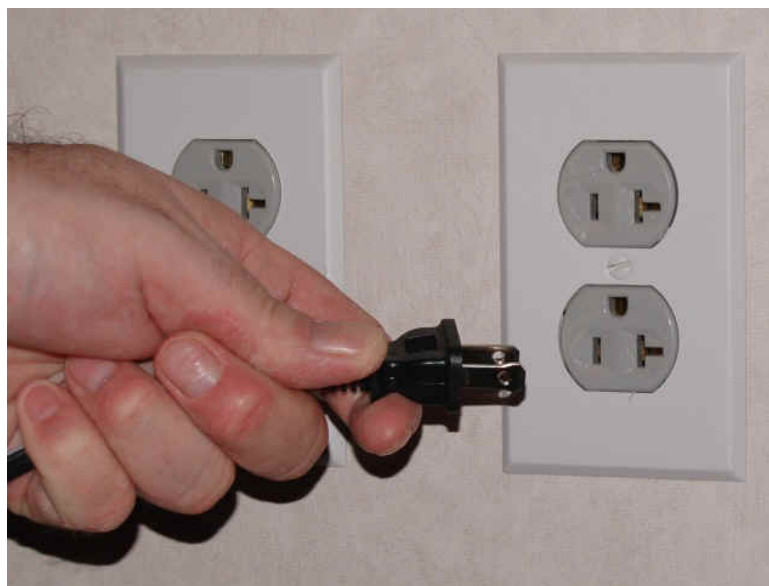

## Step 2 of 13

### Unplug The TV.

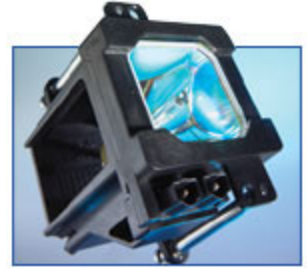

**Disconnect the power cord from the AC outlet.  
Make sure that the LAMP LED light has stopped  
blinking before you unplug the TV.  
Never attempt to replace the lamp with the TV  
plugged in.**

# Step 3

of 13

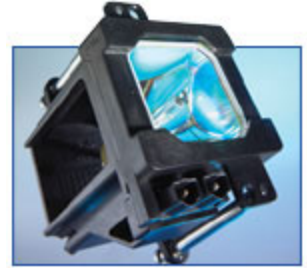

## Locate The Lamp Cover.

The Lamp cover is located on the left side of the TV towards the back.

# Step 4 of 13

## Remove The Lamp Cover.

To access the lamp you will need to remove the lamp cover.

You can use a coin or screwdriver to turn and loosen the screw.

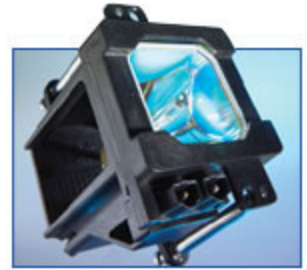

Once fully loosened you can remove the cover.

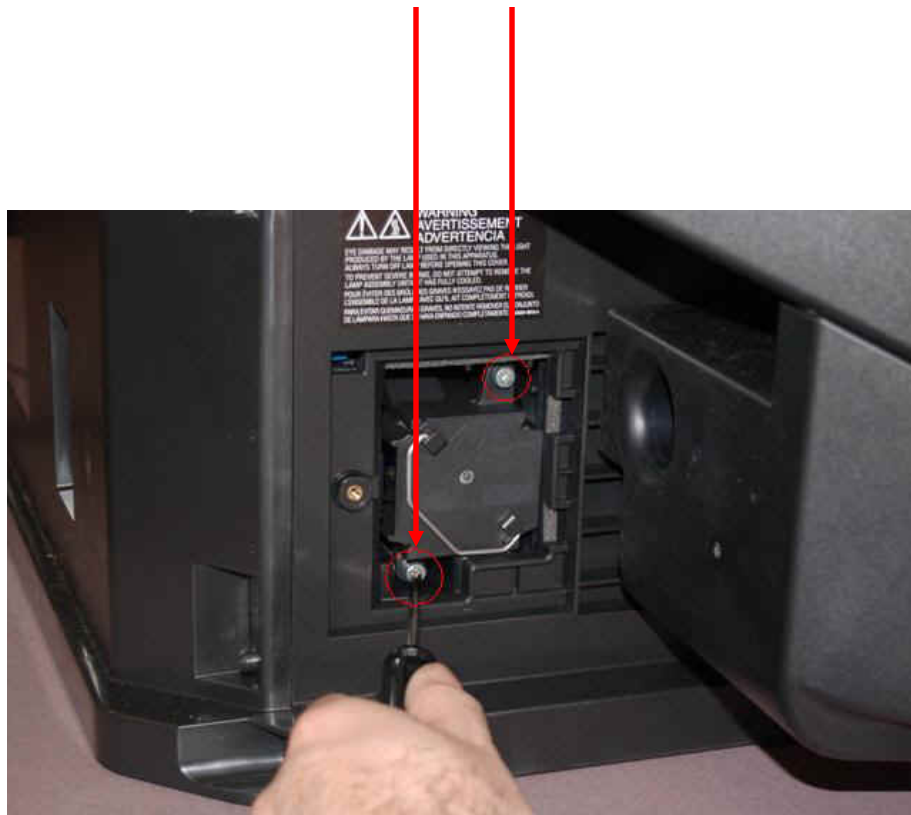

# Step 5 of 13

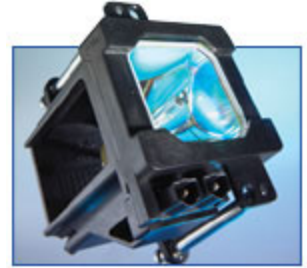

## Loosen The Screws Holding The Lamp.

Using a Philips head type screwdriver, loosen the two screws fastening the lamp.

# JVC®

## Step 6 of 13

### Remove The Old Lamp.

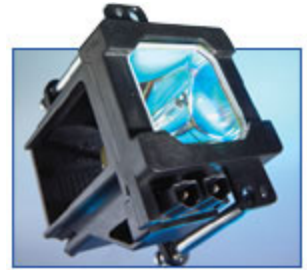

**Remove the lamp by raising the handle and gently pull the lamp straight out.**

# Step 7

of 13

## Install The Replacement Lamp.

**Holding the handle attached to the replacement lamp, slide and push the replacement lamp straight into the lamp housing area.**

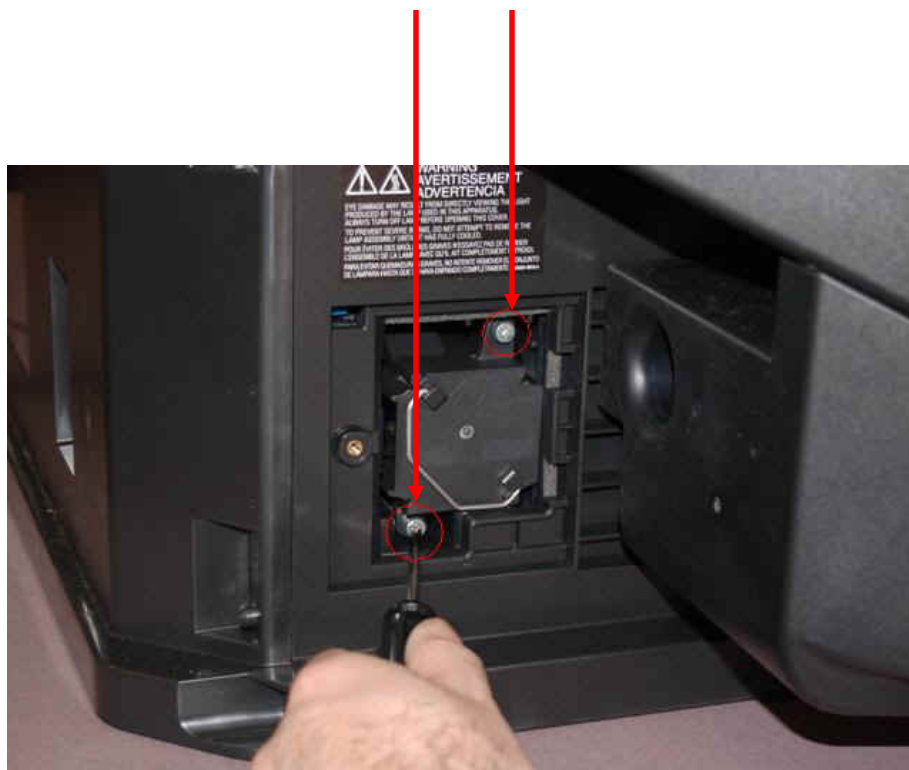

## Step 8 of 13

### Tighten The Screws Holding The Lamp.

Confirm the lamp is placed in the lamp housing evenly.

Using a Philips head type screwdriver, tighten the two screws fastening the lamp.

# Step 9

of 13

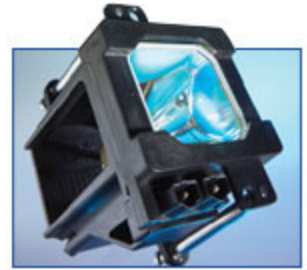

## Re-insert And Tighten The Lamp Cover.

Re-insert the lamp cover and tighten the screw of the lamp cover. Please ensure that it is securely fastened. **NEVER** turn on the TV if this door is not securely closed.

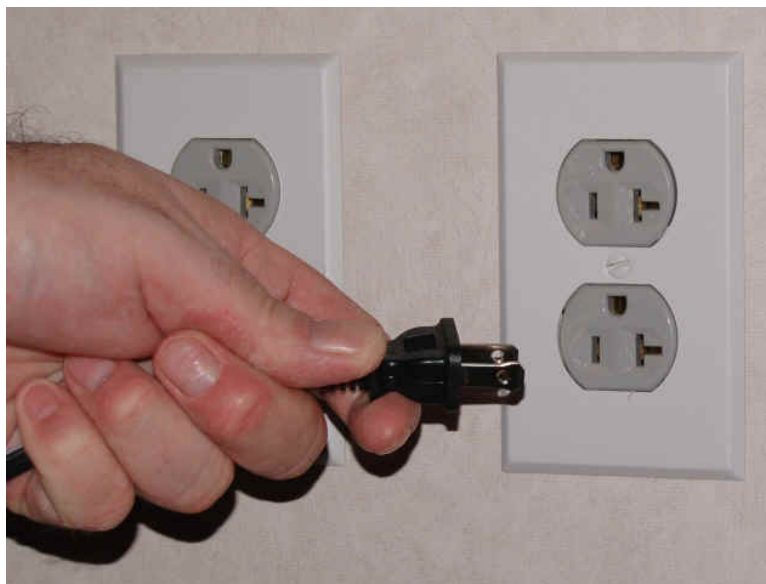

**JVC<sup>®</sup>**

**Step 10**  
of 13

**Plug Back Into The AC Outlet.**

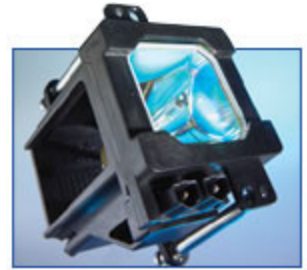

**Plug the power chord into the AC outlet.**

# Step 11

of 13

## Turn ON The TV.

**Press the POWER button on the remote control or TV front panel.**

**Confirm that the New Lamp and TV are working properly by waiting for the picture to appear.**

# Step 12

of 13

## Reset The Lamp Timer.

Press the MENU button

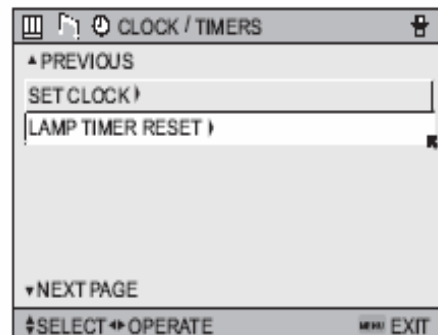

To LAMP TIMER RESET

To Enter

*The following message will appear.*

PRESS OK TO RESET THE LAMP  
TIMER.

Press the OK button while the above message appears on the monitor screen.

THE LAMP TIMER IS RESET  
SUCCESSFULLY.

*The lamp timer has now been reset.*

## Step 13 of 13

### **Properly Dispose Of Your Old Lamp.**

**Refer to the manual that came with your replacement lamp.**

**If you have any questions please visit**

#### **NOTICE (for USA)**

This product has a High Intensity Discharge (HID) lamp that contains a small amount of mercury. It also contains lead in some components. Disposal of these materials may be regulated in your community due to environmental considerations. For disposal or recycling information, please contact your local authorities, or the Electronics Industries Alliance: <http://www.eiae.org>
