32" Direct View Television

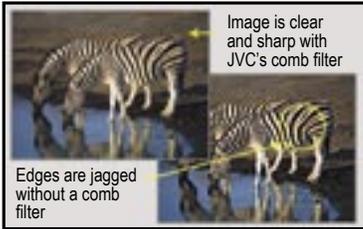

D-SERIES

JVC's D-Series television offers superior picture and sound reproduction and elegant styling at an affordable price

High Quality Picture & Sound Features

- **3 Line Digital Comb Filter** – this digital comb filter helps reduce distracting picture anomalies such as hanging dots, color bleeding, and other cross color interference. Note the jagged edges on the stripes in the right hand image

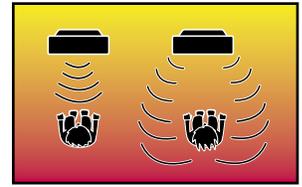

- **5 Video Status Modes** – choose from D6500K, the standard color temperature for films; Theater, for a rich film-like look when viewing in a dimly lit room; Dynamic, to heighten contrast and boost brightness for a more vibrant image; Game, for playing video games; and Standard, the preset for everyday normal viewing
- **Black Level Expansion (BLE)** – a key standard feature of any JVC direct view model is our own BLE which creates dark, rich blacks that yield a picture with greater contrast and more vibrant colors
- **Smart Sound & Smart Captions** – Smart Sound adjusts the TV volume for sudden changes in volume (such as during commercials). Smart Captions automatically turns on the Closed Caption feature when you press the Muting button
- **Universal Remote Control with Game Button** – this handy universal remote operates your TV and can be set to operate other brands of VCRs, cable boxes, satellite receivers, and DVD players (all sold separately). With one press of the special Game button, the TV input automatically switches to Video-3 (accessible on the front panel) and sets the video status of the TV to Game mode, the perfect settings for video game play

Notes & Disclaimers

- Specifications are tentative and subject to change without notice.
- BBE is manufactured under license from BBE Sound, Inc.
- All images on this sheet are simulated to show effect.

Convenience Features

- **BBE High Definition Audio & Hyper Surround** – sound features include 10 Watts Total Audio Power, BBE High Definition Audio for natural and pure sound reproduction, and Hyper Surround (shown in illustration) for virtual surround sound
- **Inputs & Outputs** – Input terminals include 1 Component Video Input, 1 S-Video Input, and 3 AV Inputs. Output terminal includes a Fixed Audio Output
- **A Full Complement of Standard Features** – includes Hyper Scan High Speed Channel Change, XDS ID Display, Front Panel Lock, On Timer Vol. Setup, Interactive Plug In Menu, Auto Shutoff, Halftone Trilingual Menus (English/French/Spanish), Multi-Function Timer with Sleep, Return+ and more
- **Optional Available Matching TV Stand** – the perfect complement to any television is a stylish, same color metallic TV stand
