Flat Screen Television

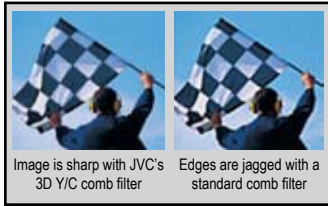

JVC's real flat televisions offer superior picture and sound reproduction and elegant styling at an affordable price

High Quality Picture

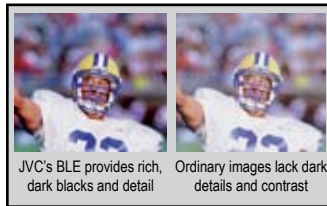

- **Real Flat CRT with INVAR Shadow Mask** – the special alloy used with JVC's real flat CRT with INVAR Shadow Mask provides superior contrast and brightness

- **3D Y/C Comb Filter** – this digital comb filter employs 10bit A/D converters to enhance Y/C output thereby drastically reducing dot crawl and other cross color interference that can occur from ordinary frame sampling

- **Selectable VSM** – allows you to choose when you want to apply Velocity Scan Modulation's edge sharpening technology

- **Black Level Expansion (BLE)** – a key standard feature of any JVC direct view model is our own BLE which creates dark, rich blacks that yield a picture with greater contrast and more vibrant colors

- **5 Video Status Modes** – choose from TheaterPro D6500K, the standard color temperature for films; Theater, a rich film-like look for viewing in dimly lit rooms; Dynamic, heightened contrast and brightness for more vibrant images; Game, settings for video game play; and Standard, the perfect preset for everyday normal viewing

Notes & Disclaimers

- Specifications are tentative and subject to change without notice.
- All images on this sheet are simulated to show effect.
- Dolby and the double-D symbol are registered trademarks of Dolby Laboratories.

Convenience & Sound

- **Built-in ATSC Tuner with Clear QAM** – provides no hassle HD from over-the-air (ATSC) or unscrambled cable (QAM) signals

- **Sound Package** – Both models are MTS stereo equipped with front side firing speakers and 10W total audio output.

- **Smart Sound** – Automatically adjusts the volume level during commercials

- **Unified Remote Control with Game Button** – this handy remote operates your TV and a JVC VCR or DVD player (all sold separately). Pressing the Game button will switch the TV input to Video-3 (accessible on the front panel) and sets the video status of the TV to Game mode – the perfect settings for video games

- **Inputs & Outputs** – Input terminals include 1 Component Video Input, 1 S-Video Input, and 3 AV Inputs. Output terminals include an Optical Digital Audio Output and a Fixed Audio Output

- **A Full Complement of Standard Features** – includes Favorite Channel Summary, Hyper Scan High Speed Channel Surfing, XDS ID Display, Front Panel Lock, On Timer Vol. Setup, Auto Shutoff, Trilingual Menus (English/French/Spanish), Multi-Function Timer with Sleep, Return+ and more
