MICRO COMPONENT SYSTEM **UX-LP5**

-Consists of CA-UXLP5 and SP-UXLP5

For turning off the demonstration display, see "Display Demonstration" on page 3.

For customer use:

Enter below the Model No. and Serial No. which are located either on the rear, bottom or side of the cabinet. Retain this information for future reference.

For U.S.A.

This equipment has been tested and found to comply with he limits for a Class B digital device, pursuant to part 15 of he FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. Thi equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with he instructions, may cause harmful interference to radio communications. However, there is no guarantee that nterference will not occur in a particular installation. If this equipment does cause harmful interference to radio or elevision reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following

Reorient or relocate the receiving antenna.

ncrease the separation between the equipment and eceiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician

Warnings, Cautions and Others Mises en garde, précautions et indications

CAUTION

The lightning flash with arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of uninsulated "dangerous voltage" within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons. The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

ENTION: POUR ÉVITER TOUT RISQUE D'ÉLECTROCUTION NE PAS OUVRIR LE BOÎTIER. CUNE PIÈCE INTÉRIEURE N'EST À RÉGLER PAR L'UTILISATEU RER À UN AGENT QUALIFIÉ EN CAS DE PROBLÈME

Le symbole de l'éclair à l'intérieur d'un triangle équilatéral est destiné à alerter l'utilisateur sur la présence d'une "tension dangereuse" non isolée dans le boîtier du produit. Cette tension est suffisante pour provoquer l'électrocution de personnes. Le point d'exclamation à l'intérieur d'un

triangle équilatéral est destiné à alerter l'utilisateur sur la présence d'opérations d'entretien importantes au sujet desquelles des renseignements se trouvent dans le manuel d'instructions.

Basic and Common Operations

- When you plug in the System, the display demonstration automatically starts. To cancel the display demonstration, press and hold DEMO until "DEMO CLR" is displayed while the System is on standby.
- When the ECO Mode is activated, the display demonstration does not work (and you cannot deactivate it).

When the display demonstration is activated, it also starts if no operation is done for about 2 minutes while the System is turned on.

Using Headphones

- Be sure to turn down the volume before connecting or putting on the headphones. Connecting the headphones will deactivate the speakers.
- Sound adjustments also affect the sound through the headphones.

DO NOT turn off (standby) the System with the volume set to an extremely high level; otherwise, the sudden blast of sound can damage your hearing, speakers and headphones when you turn on the System or start playback.

The operations on pages 4 to 6 are explained using the remote control, unless nentioned otherwise. However, if the System has the same or similar button names they can also be used for the operations.

To Indication/Result System Remote he STANDBY lamp on the System turns off/on urn on or off (b/I) standby) the po See "Playing Back a Disc on page 4 and "Listening to an iPod/Viewing Select a source mages on the iPod" on page 5. iPod ⊳/II iPod For "FM/AM," see "Listening to FM or the remote control **O**TUN TUNER and AM Broadcasts" on page 5. r►TUNER FM--TUNER AM-For "AUDIO IN," see "Listening to Other Equipment" on page 5. Getting Started

Supplied Accessories After unpacking, check to be sure that you have all the

- following items. • Remote control, RM-SUXLP5J (x 1)
- Lithium coin battery CR2025 (x 1) - The battery has been installed in the remote control
- when shipped from the factory.
- AM loop antenna (x 1) FM antenna (× 1)
- Protection sheet (x 1) If anything is missing, consult your dealer immediately.

Prepare the Remote Control

When you use the remote control for the first time, pull out the insulation sheet.

- Store the battery in a place where children cannot reach. If a child accidentally swallows the battery, consult a doctor immediately. • To prevent the battery from overheating, cracking, or starting
- Do not recharge, short, disassemble or heat the battery or dispose of it in a fire.
- Do not leave the battery with other metallic materials. - Wrap the battery with tape and insulate when throwing
- Do not poke the battery with tweezers or similar tools. • Dispose of battery in the proper manner, according to federal,

For USA-California Only

state, and local regulations.

awav or savina it.

This product contains a CR Coin Cell Lithium Battery which contains Perchlorate Material – special handling may

See <u>www.dtsc.ca.gov/hazardouswaste/perchlorate</u>

CAUTION:

Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

Connections Do not connect the AC power cord until all other connections have been made.

Playing Back a Disc

- This System can play back
- CD-R/CD-RW recorded in audio CD format (CD-DA) or recorded MP3/WMA files
- When playing back an MP3 or WMA track, MP3 or WMA indicator lights up.

Loading a Disc (on the System only)

Press to open the disc tray. • When using an 8 cm (3 3/16 inch) disc, place it

on the inner circle of the disc tray

Prohibiting Disc Ejection (on the System only) You can lock the disc tray so that no one can eject the loaded disc while the

Press to close the disc tray.

Press these buttons for 2 seconds while the System is on To cancel the prohibition, repeat the same procedure.

Basic Disc Operations

То	Press	Indication/Result
Play back the disc	►/II CD	Current track number and elapsed playing time appear.During playback, press again to pause.
Stop playback		While playback is stopped, total track number and total playing time (for MP3/WMA files, group number and track number) appear.
Select a track		Select the next tracks.
	144	To go back to the beginning of the current or previous tracks.
Select a group (MP3/WMA only)	UP	Select the next groups.
	DOWN	Select the previous groups.
Forward search/ Reverse search		Press and hold to fast-forward the track during playback. To stop searching, release the button.
	>>	Press to fast-forward the track during playback. To stop searching, press ►/II.
		Press and hold to fast-reverse the track during playback. To stop searching, release the button.
	4	Press to fast-reverse the track during playback. To stop searching, press ▶/II.
Change display information	DISPLAY	Press repeatedly.

NOTES:

NOTE:

• If no disc is inserted, "NO DISC" appears on the main display. • If MP3/WMA files are not recorded on the disc, "NO PLAY" appears on the main display.

RESUME Play Press RESUME to activate RESUME Play so that the RESUME indicator lights up. When you stop the playback by one of the following operations, this System

Pressing ■ once – Changing the source

When you start playback again, playback starts from the beginning of the stopped track. To clear the memory, open the disc tray.

When you clear the memory and start playback, playback starts from the first

stores the beginning of the stopped track on the disc.

To deactivate RESUME Play, press RESUME again.

This function does not work in Program Play

REPEAT

■ Playing Repeatedly—Repeat Play

Press repeatedly to specify the repeat mode as follows: Repeats the current (or specified) track. Repeats all tracks in the current group (MP3/WMA only). Repeats all tracks

No indicator (Off): Normal playback 2 CD

■ Programming the Playing Order—Program Play

During stops, press so that the PRGM (program) indicator PROGRAM 2 Select a track number.

4 Repeat steps 2 and 3 to program other tracks you want. If you try to program a 32nd track, "PRG FULL" will appear

The tracks are played back in the programmed order.

Operations for Program Play (while program stop mode) To check the programmed contents, press SET repeatedly.

• To add tracks, after "---" appears on the display by pressing SET repeatedly, repeat steps 2 and 3 above.

To erase or exit the program, press ■ - The stored program is not kept

■ Playing at Random—Random Play Press so that the RND (random) indicator lights up and playback

Operations for Random Play

To skip a track, press ►►I.

 To go back to the beginning of the current track, press I◄◄. • To exit from random play, press RANDOM so that the RND (random) indicator disappears during playback.

2

Make sure the antenna conductors do not touch any other terminals, connecting cords and power cord. Also, keep the antennas

away from metallic parts of the System, connecting cords, and the AC power cord. This could cause poor reception.

• When connecting the speaker cords, match the polarity of the speaker terminals: red color to (+) and black color to (-).

• DO NOT allow the conductor of the speaker cords to be in touch with the metallic parts of the System.

Make sure both the speakers are connected correctly and firmly.

DO NOT connect more than one speaker to each terminal.

Learning More about This System

Basic and Common Operations (see page 3) Pressing one of the source buttons also turns on the System

and starts playing back if the source is ready or connected. To cancel the display demonstration momentarily, press and hold DEMO while the System is turned on, until "DEMO OFF" appears. Disconnecting and reconnecting the power plug will start the display demonstration again Playing Back a Disc (see page 4)

- System cannot play "packet write" discs. For MP3/WMA playback..
- In this manual, "file" and "track" are interchangeably used for MP3/WMA operations.
- This System can show the Tag data (Version 1).
- MP3/WMA discs are required a longer readout time than regular CDs. (It depends on the complexity of the group/ file configuration.)
- Some MP3/WMA files cannot be played back and will be skipped. This result from their recording processes and
- conditions. - When making MP3/WMA discs, use ISO 9660 Level 1 or
- Level 2 for the disc forma - This System can play back MP3/WMA files with the extension code <.mp3> or <.wma> (regardless of the
- letter case—upper/lower). - It is recommended that you make each MP3/WMA file at a sampling rate of 44.1 kHz and at bit rate of 128 kbps. This
- System cannot play back files made at bit rate of less than - Playback order of MP3/WMA tracks may be different from the one you have intended while recording. If a folder does not include MP3/WMA tracks, they are ignored
- This System can recognize up to 255 groups in a disc. The total number of groups and tracks (in a disc) that can be recognized by the System is 512 (for MP3/WMA).
