

## **KD-A815J, KD-R810J, KW-XR810J firmware update**

This update improves audio quality while using hands-free phone

[View the update procedure](#)

[Download the update file \(zip format\)](#)

### **Procedure**

**Caution:** Do not power off the unit during update.

1. Download the Firmware update file v600-v600 and save it on your desktop.
2. Unzip it on to your desktop. In the unzipped folder, you will see the file J10TC\_n.rom.
3. Copy the file onto a USB flash drive. **Do not save into any folder**
4. Insert the USB flash drive into the car-radio's USB port
5. "FOUND UPDATE FILE" message appears. Press the [DOWN] button to begin the update
6. "UPDATE COMPLETE" message will be displayed when finished. Remove the flash drive and press power button to turn off the unit
