CS-GD1200

12" (30cm) Dual Voice Coil Subwoofer Unit

Aggressive Design	1400W Peak Power	400W RMS	Butyl Rubber Surround	Dual Voice Coil
-------------------	------------------	----------	-----------------------	-----------------

Key Benefits

The unit delivers powerful sound with larger magnet and dual voice coil, while the butyl rubber surround provides strong deep bass.

* Dynamic Sound (RMS 400W)

More powerful sound can be enjoyed with RMS increased 15% from the previous model.

Comparison with Previous Model
• Magnet Weight $\uparrow$ up 17%
• Voice Coil Diameter $\uparrow$ up 30%

* Butyl Rubber Surround & Center Cap

The butyl rubber surround and the three-dimensional center cap design provide stable bass delivery with more power and less distortion.
